---

---

# COVID-19 CONFIRMED CASES OUTSIDE OF CHINA

Q.9. Can you catch COVID-19 from your pet?

---

---

## COVID-19 PREVENTION TIPS

**DO**

- AVOID CONTACT WITH SICK PEOPLE
- STAY HOME IF SICK
- COUGH OR SNEEZE INTO YOUR ELBOW
- DISINFECT FREQUENTLY TOUCHED SURFACES
- WASH YOUR HANDS OFTEN
- HIGH RISK GROUPS: REFILL ESSENTIAL PRESCRIPTION MEDICATIONS, AVOID CROWDS AND NON-ESSENTIAL TRAVEL

**DON'T**

- TOUCH YOUR FACE
- WEAR A FACE MASK UNLESS YOU HAVE SYMPTOMS

Health care workers and sick people should wear masks to prevent disease spread

Q.10. Is there a vaccine, drug or treatment for COVID-19?

---

---

### CORONA VIRUS

Myths and Facts

Myths	Facts
Corona is the most dangerous virus that exists.	The common flu kills 60 times more people annually than Corona.
I will die if I am diagnosed with the Corona virus.	Only 2% of cases have reported deaths and most of these deaths were associated with weaker immune systems (e.g. old age).
I need to buy a hazmat suit and a n95 mask to stay protected.	Washing hands and sneezing into elbows is the best practice.
We all need to panic and blame China for this emergency. I should also make insensitive jokes about international students.	The panic and hysteria that's happening is fueled by racism and xenophobia, not evidence or practicality. Nothing justifies being rude to others.
I should believe everything I read online about Corona virus because it is all factually checked and written without any bias.	Misinformation and racism is more dangerous than any virus; check for references and look for evidence, not ideology.

Q.11. Which people are more prone to COVID-19?

---

---

---

### STAY HEALTHY WHILE TRAVELLING

- Avoid close contact with people suffering from a fever and cough

Frequently clean hands by using alcohol-based hand rub or soap and water
- Avoid touching eyes, nose or mouth
