## From the Principal's Desk...

**A**nother year of promises, opportunities and achievements. As I am truly excited about the upcoming school year, I extend my heartiest greetings to you dear students and your very aware and cooperative parents on new year. Equipped with the best faculties in every department, I promise yet another year filled with amazing opportunities to explore and umpteen accomplishments to be proud of!

The rigorous curriculum combined with stress on extra curricular participation will as usual ensure the growth and overall development of every child! Every year you give me innumerable moments to peek into your childhood by your involvement in various activities for which I feel blessed.

Dear children, as the Principal, it is my primary goal to ensure that this learning paradise that we call our school, educates and prepares you all to be responsible productive citizens and lifelong learners, who are able to function at optimal levels in institutions of higher learning, in careers and in a global society.

Happy learning! Happy growing!  
Jai Hind!!!

## Farewell Picnic @ Karsana

*Children will remain children forever!*

Exams, tests, hurdles nothing can stop them from indulging in fun and frolic whenever life gives them the opportunity. So what even if they are preparing for the Board Exams! What could be more refreshing and replenishing than a picnic, where they, probably for one last time, gathered together and chatted and played and sang together!

# The Alumni's Reunion 2012

An Alumni Meet is an initiative taken by us to stay in touch with our alumni and to ensure that our alumni feel connected irrespective of the physical boundaries. These meets have been providing a platform for all alumni to know the progress the institution has made in the years from when they left the school. This meet was not only an occasion for the alumni to get nostalgic and relive their school-day memories but also they help us to maintain the strong connect with our alumni and gain from their knowledge and expertise which they have gained from their exposure.

An annual feature, the meet was extra special this year as the school celebrated its 40th year of excellence in the field of education. It was held on 29th Dec., '12.

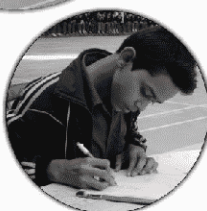

Skit, music and lot of quality sharing formed a part of the meet. The management along with the alumni had a gala time and parted on a promising note that the association will remain strong as ever.

## BRAINTeCH A Maths Festival

In order to popularize the subject and keep 'Maths Phobia' at bay, "Braintech- A Maths Festival" was organized in the Sunbeam Bhagwanpur Assembly Ground on 21st Dec & 22nd Dec, '12.

Aimed at inspiring a love for the subject, and to eliminate fear of Math in young minds and to demystify Math and overcome myths and fallacies associated with numbers, this festival saw participants showcase their intellect and mathematical creativity. The event had interesting sessions that focused on combining math and fun while involving students in problem solving sessions. This festival was an apt tribute to Srinivas Ramanujan, an enigmatic maths maverick who achieved enough in his short span of life to be still spoken of. Thanks to our maths department for introducing the amazing world of numbers in such a fun-filled and fascinating way.
