From the Director's Desk...

Dear members of the Sunbeam Family.

Congratulations on the completion of a successful academic session.

As we begin a fresh session, let us all work together to get kids to maintain a smile in school and make school so enjoyable that a youngster is unwilling to be absent.

As educators, we all know that the atmosphere within a school contributes as much to the success of the student as the curriculum. . Let us all work towards making our Sunbeam schools, a place where children feel challenged but competent, where they work hard but enjoy it, where achievement is the product but not the sole objective.

I want the teachers to help create a rich English speaking environment in schools and also emphasise on developing values and instilling patriotism in the children.

Schools should empower girls and prepare them for the rigors of life ahead. They should be taught measures of self-defence as well.

Now, with Digitization at Sunbeam Schools ,we are all set to have another educational revolution in this part of the state and I hope the entire Sunbeam fraternity is all set to take another leap ahead.

Wishing you loads of success and happiness as you embark on another journey of kindling the flame of knowledge.

All the BEST!!

*Bharti Madhok
Director*
