Meet & Greet

School was alive again with tiny tots walking in the campus, there was lots of hope.

Their smiles, innocent talks and love that these little ones showered on their teachers was a memorable site to watch.

A bond between the students & teachers can be nurtured only in the school .It's lovely to see the kids back with us and parents, who were very supportive to the whole endeavour.

1st day of Meet & Greet program was a great success. Students & parents came in two slots (5 in each). All the covid norms were taken care.
