Sunbeam Indiranagar’s most happening place is its Junior section. To highlight their progress, I call upon Junior Academic Head Shalini Narang.

Shalini Narang (Academic Head)

Good afternoon and Jai Hind everyone.

Let me share with you the journey and process that your child undergoes in the junior school. You’ll be amazed by how much your child flourishes in kindergarten. Throughout the year we focus on mastering letters, sounds and words. We start with the basic at Junior School, how to shake hands, how to look somebody in the eye and speak confidently and how to introduce themselves. How to speak to the guests, what’s the dining table etiquette. These are small little things that shape the personality of your child and helps him in unimaginable ways.

We aim to make your child independent thinker by conducting various activities like science experiment, Imaginative drawing, grip sheet, LSD Computational thinking, Virtual Escape room, STEM activities, AIL, farming and taking care of others.

We believe parents are the integral part of the school. There are many ways by which parents can support child's learning at home. Such as –

- Talk about what they did at school.
- Encourage them.
- Praise their efforts and progress.
- Let them make mistakes.
- And give quality time to them.

Hope to build emotionally and mentally strong citizens.

Thank you.

Principal

Effective parent's involvement comes when a true partnership exists between school and families, creating that partnership, the school went all out this year to involve our parents on various occasions.

Parent's Speech (Ms. Garima Srivastava)

Give a huge round of applause to Sunbeam group for completing 50 years in the field of Education.

Sunbeams in Varanasi has made it possible to give value education to our students and have created some amazing confident and morally strong children.

I am very happy that my ward is studying in this dynamic group where the main objective is transformation of young children into responsible citizen.

I have seen the magic of sunbeam. My child today is not only confident but independent thinker. Activities likes elocution, debate and other cocurricular activities help students to overcome stage fear.

Sunbeam Indiranagar has become part of our family. The care and time that the teachers give not only to students but also to the parents is amazing.

Sunbeam has always matched pace with times and adapted accordingly, for which the management needs to be complimented. Their promptness in providing a safe & secure school by installing CC cameras not only in school but also in school buses helps parents to be assured of our ward's safety.

Thank you, Sunbeam, for making my child future ready opinionated but respectful global citizen.
