Farewell Assembly OF CLASS XII @ SUNCITY

On 28th November and 30th November, the outgoing batch of both Science stream and Commerce & Humanities (jointly) expressed their gratitude through 'Atisarga- Tarifavancé' and 'Alabhyam' - the farewell assemblies. Each assembly began with a prayer followed by token of appreciation to mentors. Each stream staged lively music presentations and showed their journey through audio visual presentation.

The Science students gifted a gulmohar sapling and the Commerce & Humanities gave a mango sapling to the school. The Rock Band of Suncity - Phoenix performed and enthralled the audience of students and teachers on both the days. The Chairman, Director, Asst Director and Honorary Director blessed the batch and wished them happy fareforward.

miweek Sr. School

'All work and no play makes Jack a dull boy'. This old adage has proved true in all ages and more so in current times.

Creativity is an important element of merit in every child's life. Education is not only a chalk and board concept but it essentially aims at developing the varied premises of a child's intellect. How else would the non-academic abilities of a child be complimented! Moreover experiential learning is defined better through activities. Every child deserves the platform that would help him expand his mental horizons, explore his potential, experiment with possibilities and embrace the skills. These four Es will equip the child with parallel knowledge thereby giving him an opportunity to go beyond the conventional. With this in mind, the Multiple Intelligence Week was celebrated from 20th November to 25th November. Various activities in the senior block of class IX & X such as Portfolio Making (class X), Article Writing, Poetry Writing, Debate, Visualisation of poetry, Rhythm & Symphony, & Court the numbers (all for class IX), were conducted. The week extended with class IX students teaching letters to support staff members in the 'each one teach one program'.

Sunbeam Suncity held its Annual 'winterama'- I- explore Winter Camp for day scholars in 30 acres of sprawling verdant stretches of Sunbeam Suncity, where they participated in a series of activities which trained them to think and develop creative expressions.

The winter camp's theme 'I-xplore' was to help children explore their own passion via activities. The campers were taught to understand what it means to be lost in translation and ways of translating ideas through words, images, delicacies, music and artistic expressions.

Colorful expressions of the campers were well recorded and later shown to them through AV presentations. Edu visits, Sports activities, Bake & Shake, Crossword Puzzles, Language

Maze, Adventure Camp, Craft DIYs, Nature Walk and Junk Band kept the campers busy through their time from 1st to 3rd December. On the 3rd evening, parents witnessed the closing ceremony where the campers expressed their thoughts and thanked the school management for the impeccable arrangements.

The Asst. Director, Mrs. Pratima Gupta lauded the efforts of the campers and urged them to keep their passion alive.

Multiple Intelligence Conclave Jr. School

"If you are a naturalist you will best understand the call of nature". "If you understand music you will surely find rhythm in everything you do". Therefore the MI week was observed and students got an opportunity to explore their inner intelligence during the MI conclave. An important-week for students as they get an opportunity to learn the way they best understand.

Through the week class-wise activities like-budget making, musical fusion, team time games', green getters based on logical, musical, kinesthetic, naturalist were conducted for children.

Junior school children explored the different learning angles through the multiple intelligence conclave, where they explored their inherent intelligence and according participated in activities.

At the end of the week they were handed over an observation sheet- stating the MI's of children, which will help the parents understand their wards inclination and thus guide them better.

Empowering little hands to make future leaders

Gone are the days of dictates which shaped the personality of children or charted their course of life. The contemporary times demand owning up responsibility - for both action and reaction. 'Luck' is passé- a term non-existent in today's times. It is essential that the future leaders get a healthy dose of directed encouragement that will empower them to take up the reins of their life in their hands. This concept became the reason for a thought churning workshop for teachers with our Principal-Mrs. Archana Singh on 25th November 2017. Through varied activities and games, teachers were made to understand how they can effect the importance of words and their worth amidst the children. After all, it is these children who will grow up into leaders taking charge of the society at large.

| Simran Verma | - Silver Medal |
| Sanny Singh | - Bronze Medal |

We commend the efforts of the students and their Coaches.

Suncity pays tribute to CHACHA NEHRU

While we try to teach them everyday what life is....they teach us what life is all about. Everyday they give us reasons endless, to smile, to laugh, to cherish memories....so we wove a tapestry of love, melody and rhythm just for them ie the children. And as the program began with floral tribute to Chacha Nehru, fun and frolic ruled for an hour. The parody on various bollywood numbers followed by a skit, 'Google cannot replace teachers', and dance presentation by dance teachers enthralled the audience. The loud applause from the children evidently stated their happiness for the musical weave and

appreciation for 'their truly'- Mentors! At the end, the junior school too could not resist the temptation to perform on the stage and thereby presented a choreography which senior school duly appreciated. The celebration extended to the evening when a Suncity Hostel organised a Fete where students had put up interesting stalls for food & games.

During her address the Director- Mrs. Bharti Madhok interacted with the students and blessed them with her inspiring words. Vice Principal- Mrs. Sarita Rao conveyed the blessings of the Principal- Mrs. Archana Singh to the children and Hostel Administrator- Mr. Ashish Rai concluded the program with his blessings for the children.

VEDIC MATHEMATICS

In Vedic Mathematics, unlike the conventional methods, there are many ways to arrive at a solution for a problem. This gives us the liberty to choose the technique most convenient for us. This is the charm of Vedic Mathematics; it can be understood easily by people of any calibre. It enhances the ability to approach and tackle any mathematical problem. A workshop aimed at helping children understand maths better was organised in the school from 25th to 27th November. The facilitator - Mr. Gaurav Tekriwal successfully erased fear for mathematics in a lot of students and instilled confidence.

Saurabh Wins Bronze In Nationals

Sunbeam Suncity's student Saurabh Yadav of class VIII won Bronze medal (Shot Put 14.09m) in CBSE National Athletic Meet 2017 (Under 14 years boys Category) which was organized by Allons Public School Bemetara Chattisgarh from 20th to 24th November team coach Mr. Amit Singh & team manager Mr. Akhilesh Dubey.
